

## New Residential Installation Protocol

**“In these uncertain times you can never be too safe”**

- Temperature taking procedures before releasing technicians to job sites
- Proper Personal Protective Equipment : Masks, Gloves
- Proper sanitizing of vehicles and equipment before and after installation
- Sanitizing in home work area after completed job
- Social Distancing – Technicians will remain at least 6 feet away from clients at all times.
- Clients need to keep pets away from work area and technicians.
- Technicians will not share any items (i.e. writing instruments, paper, etc.)
- Final customer approval via verbal confirmation on-site.
- Final paperwork will be emailed to client within 3 business days of completion.
